

Challenges & Solutions

Challenge: CORS Issues

Frontend API calls failing due to cross-origin restrictions

Solution

Configured comprehensive CORS headers and preflight handling in PHP backend

Challenge: Large File Uploads

Files >50MB failing to upload, affecting content management

Solution

Implemented AWS S3 multipart upload with 5MB chunks and parallel processing

Challenge: Email Deliverability

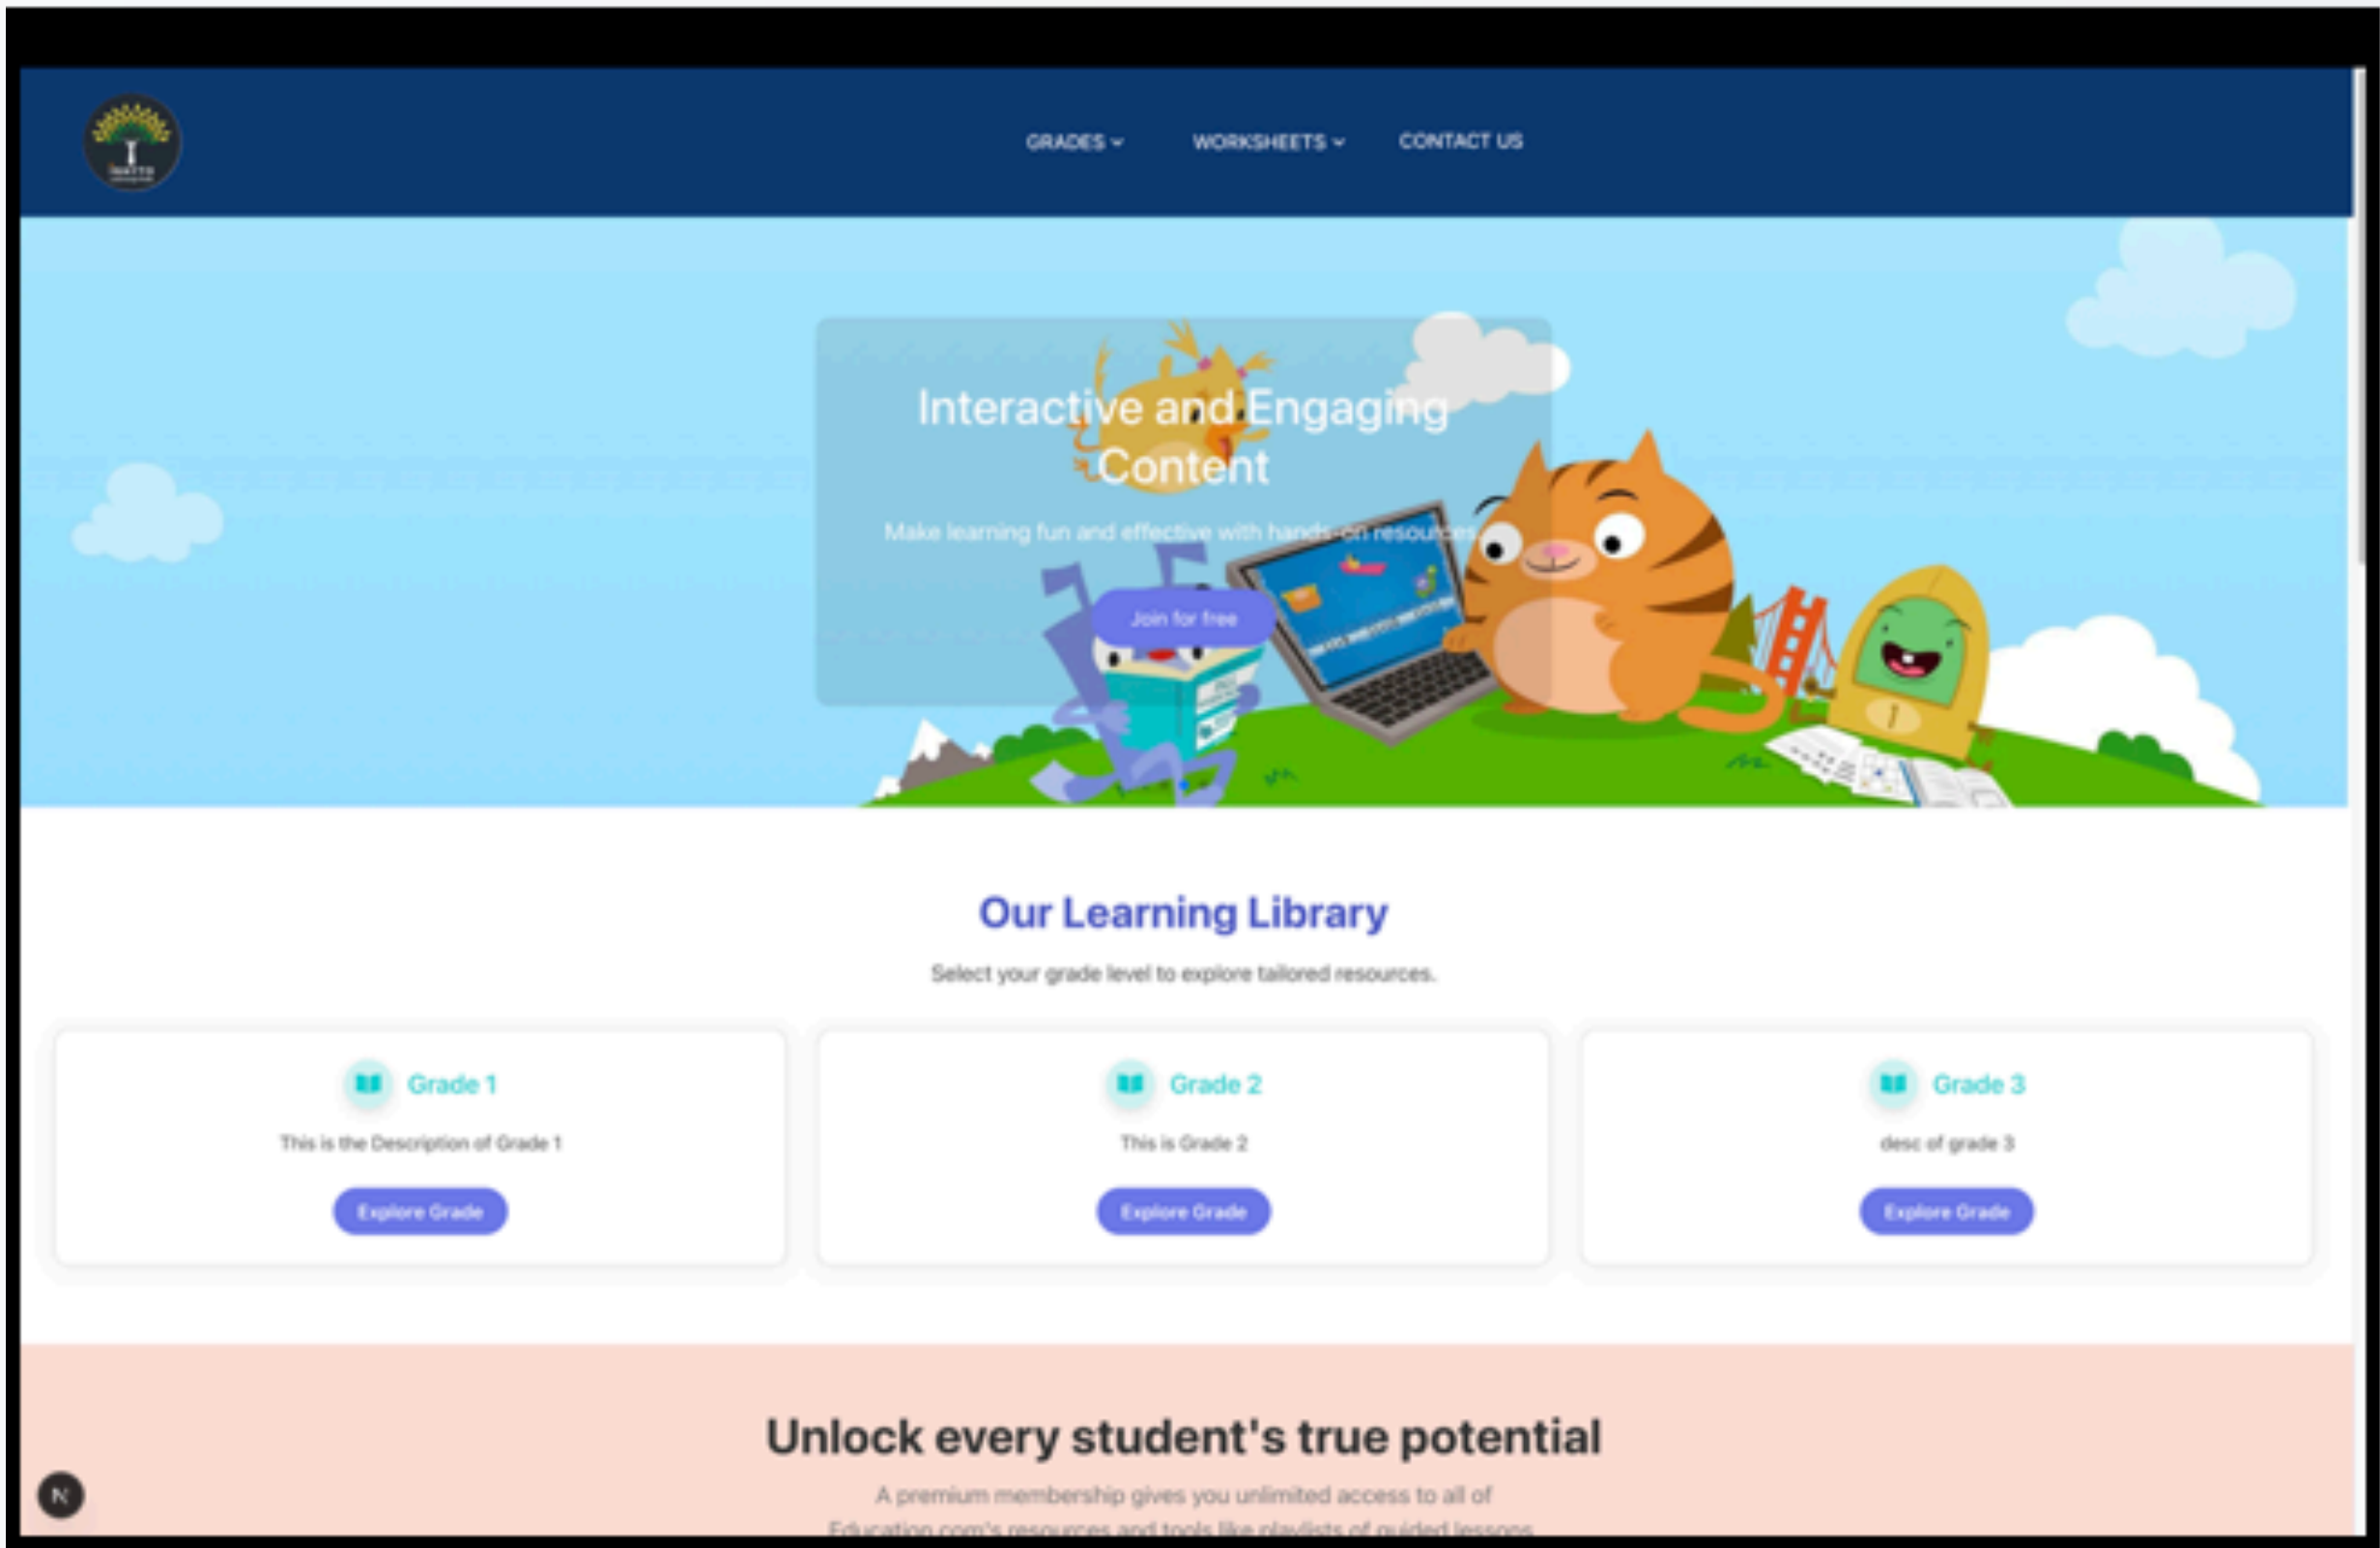

Automated emails marked as spam (60% delivery rate)

Solution

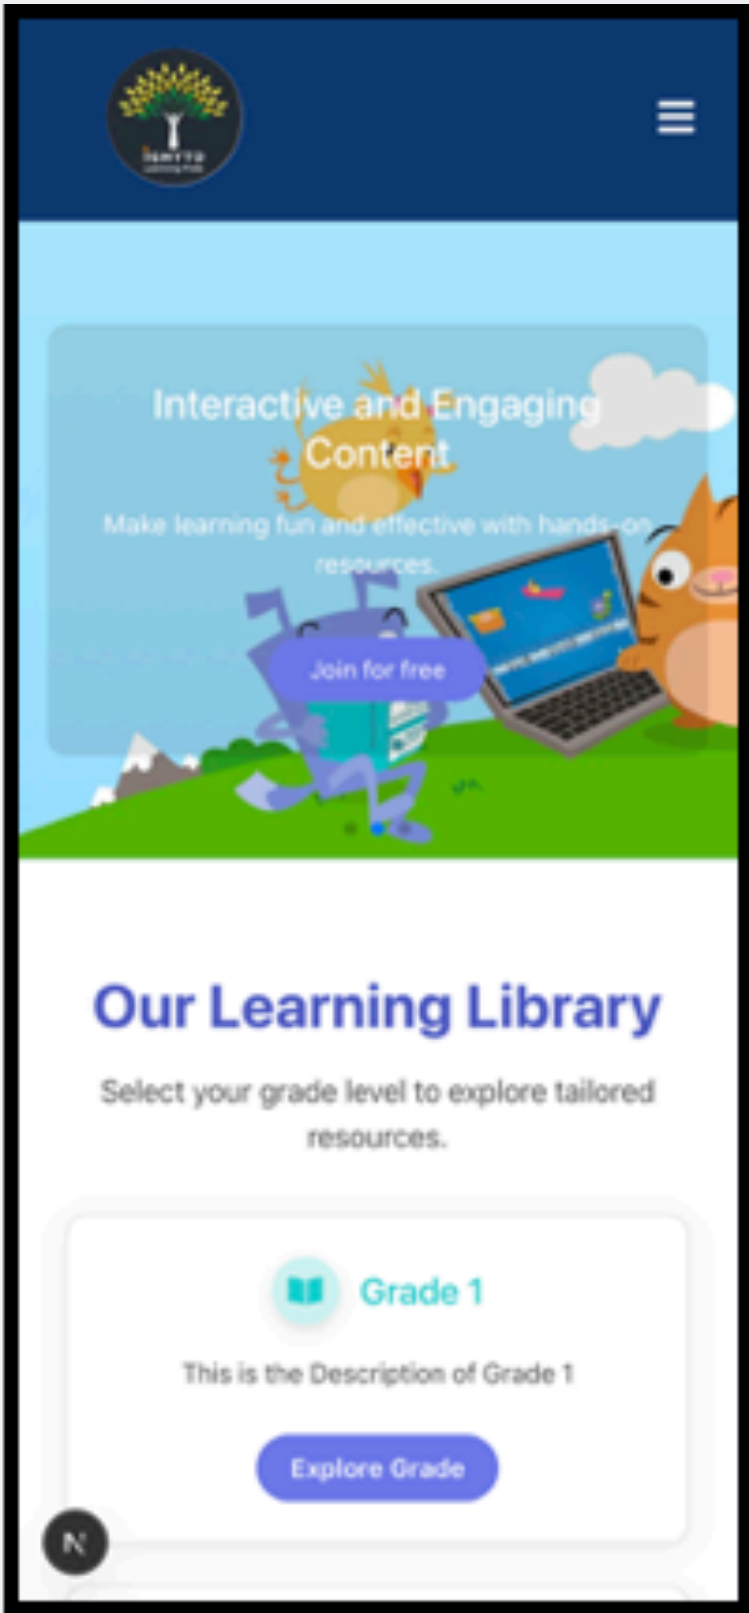

Configured SPF records, DKIM signing, and TLS encryption (95% delivery rate)
